Jivaraj Park, Vejalpur, Ahmedabad

Duration : 32 Hrs

Pre-Requirement :

- PHP
- Object-oriented programming

Drupal Topic

Topics

Drupal's requirements and how it works

Details

- **Drupal 8 Basics**
 - How Drupal began
 - What is Drupal 8
 - What Technology Does Drupal Use?
- **What is Drupal**
 - Content Management System
 - Content Management Framework
 - Web Application Framework
- **Drupal terminology**
 - Modules
 - Themes
 - Nodes
 - Blocks

How drupal is different from other cms	<ul style="list-style-type: none"> • Key terms or features in Drupal • Drupal's interface
Installing Drupal7 and drupal8	<ul style="list-style-type: none"> • Downloading and installing Acquia/Drupal on a local PC
Drupal setup	<ul style="list-style-type: none"> • Automating updates with cron • Setting up clean URLs • Backing up your Drupal site • Restoring your Drupal site from backup • Wiping your Drupal installation clean • Updating Drupal • Drupal Troubleshooting
Drupal Administration	<ul style="list-style-type: none"> • Administration menu • Site information • Setting the theme
Managing Users	<ul style="list-style-type: none"> • Security and permissions • Controlling site access with user management • Creating users • Setting user profiles • Creating contact forms
Site's Identity	<ul style="list-style-type: none"> • Node , basic info pages • Blocks and Regions • Default Blocks • Custom Blocks • Configuring Blocks • Enabling Default Blocks and Controlling the Front Page. • layout with blocks • Custom Content Types with the Fields Module <ul style="list-style-type: none"> ○ The PAGE and the ARTICLE ○ Input Filters ○ Creating Custom Content-Types ○ Field Permissions

	<ul style="list-style-type: none"> ○ Adding Custom Fields to Content-Types ○ Using the Manage Display Settings <ul style="list-style-type: none"> • Teaser / Body Displays • Labels • Display Formats
Keeping your Site Running	<ul style="list-style-type: none"> • Monitoring performance • Recovering from disasters • Improving administration
Building Content Nodes	<ul style="list-style-type: none"> • Nodes or page • Stories and article • blogs • forums • polls
Forms API	<ul style="list-style-type: none"> • FAPI, uugggh another acronym don't be scared FAPI is good • Why use an API? writing forms HTML is really easy! • A simple form • Validating the form • Submitting the form • hook_form_alter() hooks for forms! WOW, can you feel the power!
Custom nodes	<ul style="list-style-type: none"> • How to create a custom node • Why not just use CCK? A comparison • A node module's tacklebox hook_load, hook_update, hook_delete, etc.
Hooks & Theming	<ul style="list-style-type: none"> • We fishing or writing code? • Overview of what a hook is • Demonstration of a hook • Simple module implementing hook_nodeapi and drupal_set_message(\$op). • Naming conventions • Introduction to few important hooks: init, menu,

	<ul style="list-style-type: none"> nodeapi, block, user • How to create your own hooks for other modules
Managing Site Content	<ul style="list-style-type: none"> • Content categories • Exchanging content via RSS • Input filters • Comments • Site's Appearance with Themes and CSS • Choosing theme • Finding and installing a new theme
